Now Differ as to the Method of Calling Up  
Soldiers' Bonus Bill—All Agree That  
Any Action Should Await the Return of  
Speaker and President, Now in Florida

(By The Associated Press)  
WASHINGTON, March 15.—A difference of opinion developed today among Republican leaders in the house as to the method of calling up the soldiers' bonus bill. One group still favored consideration next Monday under a suspension of the rules which would cut off all amendments, while another held the opinion that delay in action would be preferable.

On all sides it was stated that a decision would await the return Saturday of Speaker Gillett who is in Florida with President Harding. Whether the speaker would entertain a motion to suspend the rules was in doubt.

Chairman Fordney of the ways and means committee disclosed that he had been informed by Mr. Gillett before the speaker left Washington that he had better not depend entirely on a suspension of rules as the procedure for getting the bill before the house.

## MANIFESTO OUT LAUNCHING NEW IRISH POLICY

Based on Proclamation  
of Irish Republic  
in 1916

(By The Associated Press)

DUBLIN, March 15.—Eamon DeValera signed the manifesto today launching a new Irish organization to be called the Cumann Na Poblachta or Republican association and asked financial and moral support of it. According to the manifesto the new organization takes its stand on the proclamation of the Irish Republic in Easter week, 1916 and its ratification in the declaration of independence of January, 1919.

Mr. DeValera signed the manifesto on behalf of the Republican members of the Dail Eireann and their standing committee. To Ask Recognition. The main objects of the organization as stated in the manifesto are to secure international recognition of the Irish republic to maintain the undiminished authority of the dail and to repudiate the proposed agreement with Great Britain as humiliating to the nation and destructive to its status and rights. Another object is stated to be to maintain respect for political pledges and the high standard of probity and honor of Irish public life.

## CHAUFFEUR MATE GRAND OPERA STAR RESUMES DRIVING

Will Follow Natural Bent  
—Is Thru With the  
Limelight

(By The Associated Press)

SAN FRANCISCO, March 15.—Floyd Grotzbach, husband of Matzenauer grand opera star who resumed his position as driver of a sightseeing automobile at Delmonico, Calif., a few days ago with the announcement that he was thru with the limelight sticks to his original statement. In an interview with a reporter of the San Francisco Examiner, Grotzbach reiterated his determination to follow his natural bent as chauffeur and not live the life of a social lion.

"There are some things a man cannot stand for," he told the Examiner, "no matter what there is in it."

"What I mean is this: I know what I am not. I am not a ladies' man. I am not a piece on interior decorations or bric-a-brac. I can cuss as much as any other man when I have to get on my back under a car and pull at a bolt that won't turn but after all I like it. How are you going to put that sort of a fellow into glad rags and stand in a reception room to chatter with the tea hounds?"

## CHICAGO DOCTOR SAYS KISSING O. K.

CHICAGO, March 15.—"Pettling" and even a kiss, if stolen under the eyes of a competent chap, were championed by Dr. Lee A. Stone, of the Chicago department of health today in a speech before the state health conference. "There is too much prudery afloat today," said Dr. Stone. "I can see nothing wrong in a young man becoming affectionate if the young woman is willing and it is done under proper safeguards."

## EXPECT MINES IN ANTHRACITE FIELD TO STOP

Joint Conference Adjourns to Await Operators Reply

(By The Associated Press)

NEW YORK, March 15.—The joint conference of anthracite mine owners and union officials adjourned at 4:40 this afternoon until Friday when the operators are expected to make a reply to the demand for a 20 per cent wage increase presented today by representatives of the miners. The proposed new scale of wages and working conditions was presented by President John L. Lewis of the United Mine Workers.

A suspension of mining is fully expected it was said by operators and miners, altho union leaders have taken no step in that direction pending a definite answer from the operators. The scale committee of the coal diggers is under instructions to "perfect arrangements providing for a suspension" on April 1 in the event that no satisfactory agreement has been reached.

There were 39 mine workers and 74 operators present.

While there was not much intermingling of miners and operators a good feeling appeared to prevail.

After the conference the miners issued a statement analyzing the principal demands presented. It said:

**Demands Made.**

"Demand No. 1 asks for a two year contract and that the making of individual agreements and contracts in the mining of coal shall be prohibited. The fundamental principle involved in the latter question seeks to prevent the establishment of the vicious subcontracting system and to eliminate such sub-contracts as now exist. The organization holds that every man should have a right to work under contract in the cutting and loading of coal and no monopoly of contract work should be given a few men.

"To prohibit the making of individual contracts in the mining of coal does not prohibit the contract miner working contract in the regular places at standard contract rates, usages or rules permitted by the wage scales and agreements, but it does seek to prohibit the making of individual contracts by those who in turn employ others to do the work and thus make earnings thru the exploitation of fellow workers.

**Why Increase is Asked.**

"In explaining the demand for a 20 per cent increase on contract rates and \$1 a day for day men, the mine workers' representatives point out that contract miners since 1916 have received an increase of only 65 per cent in their wage scale, whereas the living costs have doubled and remained so for a number of years. In part payment for the losses sustained due to inadequate increases and in keeping with higher standards of living, plus the appalling hazard of the mining of coal, contract miners are entitled to the increase demanded. On the \$1 per day increase for day men it was explained by the mine workers' representatives that the minimum day rate is now \$4.20 which under the increase would make the minimum \$5.20 and in order to enjoy a saving wage and a wage commensurate with the hazard and risk of the industry the miners reiterated that it was necessary to apply the increase thus demanded."

**Short Skirts Seen AS ACCIDENT CAUSE**

(By The Associated Press)

CHICAGO, March 15.—Longer skirts for women, lower steps for street cars or blunders for men—Chicago must have one of the three in order to prevent a steady increase in accidents, Alderman Klein declared today in introducing an ordinance before the city council providing for lower street car steps.

"The women wear such short skirts that when they start to climb up the high street car steps—well, the men can't seem to keep their eyes to the front and many accidents occur, particularly among the automobilists," explained Mr. Klein.

The proposed ordinance was referred to a committee.

**WILSON ENDORSES WILSON DEMOCRACY**

(By The Associated Press)

NEW YORK, March 15.—A message from former President Wilson endorsing the program of Woodrow Wilson democracy to continue the fight to bring the United States into the league of nations, was made public tonight by Hamilton Holt.

"I have the greatest confidence that with such purposes and under such leadership the organization will achieve notable results," Mr. Wilson added, "asserting that nothing could give him greater satisfaction than the telegram."

Charles C. Bauer, secretary of democracy announced that local groups were being organized in several states.

## Twenty Thousand Persons Idle as Result of Chicago's Fire

(By The Associated Press)

CHICAGO, March 15.—Investigation of the cause of the fire which destroyed a solid block of thickly settled tenanted office buildings, caused a loss of more than \$5,000,000, resulted in the death of one man and made 20,000 persons idle was begun tonight by state, city and insurance officials.

The manner in which the flames flared out in several places at the same moment, the almost incredible rapidity with which they spread until nothing but smoldering ruins left of the entire block bounded by South Canal, West Van Buren and South Clinton streets and West Jackson Boulevard caused Shirley T. High fire attorney, to announce that "everything pointed to incendiaryism."

The first still alarm was turned in at 12:50 A. M. This was followed by other alarms at three and four minute intervals until nearly every piece of fire fighting apparatus in the city was at the scene. But even with 52 engine companies playing more than a hundred lines of hose on the flames it was not until over four hours after the receipt of the first alarm that the fire was finally brought under control.

Just across the street from the charred landscape of tottering walls and twisted steel on which their incoherent voices were working for the next three days, towered the massive skeleton of the "fire-proof" Burlington building to which 15 stories of windows stared like sightless eyes over the scene of desolation, for the contents had been destroyed by a heat so intense that glass from the windows had melted and was being blown by the firemen as having "run like water." The structure

housed the headquarters of the Chicago, Burlington & Quincy railroad and all records of the operating, engineering, legal and executive departments were destroyed.

**Departments Helpless**

Officials of the board of underwriters declared that the fire, the most disastrous since the city was destroyed by flames in 1871, revealed many problems which would have to be met by firemen before they could hope to cope successfully with fires in great modern skyscrapers. The effect of the fire on the Burlington building was declared to show that no skyscraper is free from fire danger and that the modern fire department is practically helpless against a blaze that gets a full headway in the upper floors of a tall building.

**Need More Water.**

Insurance men, underwriters and firemen declared that methods would have to be devised to enable fire fighters to get more water to the top of big buildings. The use of water towers such as are said to have proved effective in New York, by means of which streams of water can be poured into the upper floors of a building also was advocated by the insurance men who pointed out that the Chicago department lacked apparatus of this character.

In an effort to fix responsibility for today's fire a former police department employee was questioned after W. T. Schiff, vice-president of Schaffer and company whose plant was destroyed said the man had written threatening letters. "The flames were first observed in the vicinity of the Schaffer plant," he said. After being questioned the man was released.

**NEW YORK INCOME TAX PAYEES JOIN LAST HOUR RUSH**

(By The Associated Press)

NEW YORK, March 15.—The eighth annual pilgrimage of money makers, men and women to the counting houses of the internal revenue collector to pay their income tax, continued from dusk. Subways, elevated and surface thoroughfares leading to the United States customs house and its sub stations bore the throng of eleventh hour payees. They swarmed the federal building from basement to the roof; they jammed the elevators and filled the corridors with a stream of hurrying humanity which eddied to and from the score of cashiers cages.

They joggled each other's elbows and smashed ink over each other's income blanks at the hastily erected tables which lined the hall ways all moved by a common impulse; to file their returns and pay the initial tax demand by the government escaping the forfeit claimed from delinquents.

Rush of tax payees were filled. A few millions in cash poured into the treasury. Special deputy collectors who directed the people to their proper channels, asserted that the rush was as heavy as in any year since 1914, but it is not anticipated that the income to the government would be as large here this year as it was in 1921, they said. The depression of the last year has resulted in a decreasing number of taxpaying bootleggers, the component parts of the throng were indistinguishable from those of other years, it was said.

**Bootlegger Files**

At the Brooklyn office a bootlegger and a bookmaker were among those who paid taxes. The part of the bootlegger's annual income which he had derived from his "profession" was not disclosed by the revenue clerks, but it was ascertained that he paid a tax of \$2,000 on an income of \$50,000.

The bookmaker listed his \$20,000 income in the column labeled "commissions." He paid a tax of \$800.

**CON CON RESUMES DELIBERATIONS ON TUESDAY, APRIL 18**

(By The Associated Press)

SPRINGFIELD, Ill., March 15.—The constitutional convention which adjourned yesterday night April 18, will not resume sessions until April 25, according to the plans of President Charles Woodward.

Further postponement of the date was decided upon because of county and state political conventions during the third week in April. Democrats will use representatives hall in the south wing of the capitol where the convention holds its sessions, for their state convention April 25. With political conventions set for the week of April 16, President Woodward concluded that it would be hopeless to expect a quorum of basic law makers to gather for only two days sandwiched in between the dates for the county and state conventions.

Letters to all delegates will probably be sent by President Woodward this week notifying them of the change with the additional information that the plans to hold the convention in session from Monday until Saturday each week during the remainder of the year, there had been persistent reports that the delegates would seek to destroy the treaty by amendments, but the tone of today's debate gave little indication of such tactics.

The Marquis of Lansdowne, a leader of the "die hards" called attention to grievances which he said ought to be remedied, but said he recognized the unionist policy had been justified and that nothing remained but to see the government's policy thru.

To reject the Irish treaty bill he declared, would be to extinguish the only bright ray of hope now illuminating a depressing horizon. His speech was taken as an indication that the bill eventually would be ratified.

LONDON, March 15.—Debate on the Irish free state treaty was resumed in the house of lords today. There had been persistent reports that the die hards would seek to destroy the treaty by amendments, but the tone of today's debate gave little indication of such tactics.

**CANCEL DEBTS FOR PEACE ASSURANCE**

(By The Associated Press)

NEW YORK, March 15.—Cancellation of the allied war debts to the United States in return for pledges that conditions keeping Europe in turmoil will be eliminated was advocated today by Otto H. Kahn, banker in a speech before the Advertising Club. Disarming conditions referred to were peace treaties and form the basis for intermenable strife, he said.

"The most troublesome of many growing out of the treaties is the amount of the German reparation," he added. "It is not only greatly beyond Germany's capacity to pay, but it is causing grave danger to all the world."

**EXPLORER PURCHASES PASSENGER AIRPLANE**

(By The Associated Press)

SEATTLE, Wn., March 15.—Captain Ronald Amundsen, discoverer of the South Pole has purchased a nine passenger airplane to be used in scientific expeditions in connection with his forthcoming attempt to drift past the North Pole with the Arctic pack H. H. Hammer, his agent here announced today.

Captain Amundsen who is in Norway will return to New York, March 28, accompanied by a Norwegian aviator. The aviator with another to be picked up in New York will fly the plane to Seattle, Mr. Hammer said. The explorer plans to resume in May his Arctic voyage, interrupted last year within his ship the Maud, dropped a propeller off the Northwest Siberian coast.

## SCOTIA GHOST IS EXPOSED BY GHOST HUNTER

Dr. W. F. Prince, Scientist, Gives Result of Investigation

(By The Associated Press)

HALIFAX, N. S., March 15.—Mary Ellen MacDonald, foster daughter of Mr. and Mrs. Alexander MacDonald was the ghost of Antigonus, Dr. W. F. Prince, scientific ghost hunter, declared in a report on his investigation of the haunted MacDonald home at Caledonia Mills, made public tonight.

At least, Mary Ellen set the mysterious fires which were among the chief of the ghostly manifestations, Dr. Prince said. He held that she was not "morally culpable as she was in an altered state of consciousness" and did not realize what she was doing. There is a possibility supported by a body of evidence, the report said, that this altered state was brought about by a disordered intelligence. This is a theoretical possibility whereas the external facts seem certain.

**Explains Phenomena**

Dr. Prince indicated that the braiding of the cows tail and the shifting of a farm stock also probably was the result of Mary Ellen's "altered state of consciousness."

The slaps that Harold Whidden, Halifax Herald reporter and P. C. Carroll, detective claimed to have suffered from a ghostly hand after the MacDonald's had been frightened out of their home, were not traced to Mary Ellen's hands.

Their experiences, said the report, "were probably of a super normal character which does not necessarily imply that super normal cause was spiritualistic."

It may have been owing to a psycho-physiological cause which is perfectly natural though imperfectly normal.

In other words, Dr. Prince implied, Whidden and Carroll might have slapped each other—or might merely have thought they were slapped.

**Windsor Sees Ghosts**

Windsor, Ont., March 15.—Windsor is the latest city to list a ghost among its residents. He is registered as Leo Leonard, who died in Jackson, Mich., two weeks ago.

His son-in-law Franklin Crandall, a truckman today complained that the ghost had been hovering around his house for several nights moaning for "Flossie" and "Pearl."

"Flossie" is Mrs. Crandall, the truckman's wife and Pearl, Mrs. Leonard, his mother-in-law, who was sent for after her name was called.

According to Crandall, the ghost became most violent last night. Crandall said he was lying in bed and sent sailing across the room, landing at his wife's feet. Tired out by constant moans and mysterious rattlings, he woke up out of a daze.

Preliminary reports, he said, indicated that total subscriptions aggregate about \$600,000,000 for the issue which was for about \$250,000,000.

Mr. Mellon also announced the closing of subscription books for the four year 4-4-4 percent treasury notes dated today which were offered only in exchange for 4-4-4 percent victory notes.

## SENATE FINAL VOTE ON TREATY IS TO BE TAKEN FRIDAY

Opponents of the Four Power Pacific Treaty Abandon Plans for Prolonged Fight Against Ratification—Debate Limited—Administration Leaders Believe Will Pass

(By The Associated Press)

WASHINGTON, March 15.—Opponents of the four power Pacific treaty in the senate today abandoned all plans for a prolonged fight against ratification and accepted a unanimous consent agreement to limit debate and to take a final vote on Friday, March 24.

The agreement, hailed by administration leaders as a certain indication that ratification is assured, was proposed in the senate after conferences among the various senate elements and was accepted virtually without debate. It provides that no further reservations or amendments shall be voted on until next Tuesday, that speeches on the treaty shall be limited to one hour on those on reservations to 30 minutes each, beginning on Wednesday, and that final vote shall be taken without debate as soon as the senate convenes on the following Friday.

Negotiations to bring the ratification fight to an end began after the senate had refused for the third time to amend the treaty so that outside powers would be called into consultation when any Pacific controversy touches their interests.

An amendment for that purpose in a form differing slightly from the two voted down yesterday were presented by Senator Pittman, Democrat, Nevada and was defeated 28 to 50 with the division of strength virtually coinciding with party lines.

**Not Much Debate**

Little running debate developed over the amendment of the treaty generally, altho Senator Spencer, Republican, Missouri, a treaty supporter stirred up a cross fire of discussion by assailing the "no alliance" reservation of the foreign relations committee. He declared the treaty did create "an alliance for conference" and that the reservation constituted a ridiculous absurdity.

Ratification was urged by Senator Ransdell, Democrat, Louisiana, and an attack on "Irish-American influences against the four power pact" was made by Senator Williams, Democrat of Mississippi. Meantime also two new reservations and one more amendment were offered for later consideration. One reservation was put in by Senator Johnson, Republican, California, and embodied the language of the reservation which had been presented by Senator Brandegee, Republican, Conn., in the foreign relations committee, but abandoned by him after a conference with President Harding.

The other reservation was by Senator Shields, Democrat, Tenn., and would declare the treaty no interference in foreign quarrels.

The amendment offered by Senator Robinson, Democrat of Arkansas would pledge the four power against secret treaties or understandings. It was Senator Brandegee who brought up the unanimous consent agreement with a statement that he had been prompted to prepare it, because several Democratic senators had made the suggestion that a time be fixed so they would be free to attend to other duties away from Washington.

The opposition leaders would not discuss what they hoped of defeating ratification but they conceded privately that they saw little to be gained by delaying a vote. This admission in itself was accepted by those in charge of the treaty as virtually meaning the collapse of any real effort to beat the pact.

The Outside Force. It was considered probable that in the campaign to secure reservations the opposition now would center attention on the question of admitting outside powers to the Pacific conferences.

Altho defeated three times in the form of an amendment proponents of the pact still believe that if embodied in the right kind of a reservation it might command the support of many who had hesitated to amend the treaty text because that method would require reopening of the negotiations.

In the form presented today by Senator Pittman, the amendment would have limited the outside powers gaining the benefits of the treaty to those which actually have insular possessions in the Pacific. The vote was virtually the same as that by which the two previous drafts had been defeated yesterday.

**SECRETARYSHIP IS DECLINED BY EARL**

LONDON, March 15.—(By The A. P.)—The Earl of Derby has declined the offer of the Indian secretaryship, but has been asked to reconsider his refusal. It is understood that he considers he can better serve the coalition from outside than inside the cabinet.

Gossip in the lobby of the house of commons tonight is again concerning itself in the early resignation of the prime minister.

**RAILWAY EARNINGS SHOW HUGE GAIN**

(By The Associated Press)

CHICAGO, March 15.—The railways of the United States in the last six months of 1921 had total earnings of 51 per cent greater than for the last six months of 1916, but they earned a smaller net return than five years ago, Samuel O. Dunn, editor of the Railway Age asserted in an address before the Chicago association of commerce today. The railroads, he said, earned \$5,000,000 a day more in the last six months of 1921 than in the same period for 1916 but the operating expenses were \$6,000,000 a day greater. In the last half of 1916 operating expenses were \$5,140,000 daily, he said, while in the last half of 1921 they were \$12,100,000 daily.

Quincy contractors and workers are taking an unusual method to solve the housing problem. As a result fifty houses are to be sold at actual cost. That's a fine plan for the house owner, but one wonders how the contractors were persuaded to go at the project in this philanthropic spirit.

Evidently the park board and golf enthusiasts are working quite in harmony. This unity of action will no doubt result in betterments for the park that would otherwise never be developed. This work together spirit is getting so popular that some time even the church choir may be expected to be found working together in some grand undertaking.

A Chicago fire has just damaged property variously estimated at from \$5,000,000 to \$10,000,000. Had you asked about the buildings in this group a few days ago, you would have been assured that they were fire proof. Evidently there isn't such a thing as an absolutely fire proof structure. Unusual conditions accompanied this great conflagration but that is the general rule when applied to such happenings.

Rev. Mr. Williamson, who has assumed the tremendous job of trying to bring about law enforcement in Chicago, has at least made one very true statement. He said that satisfactory law enforcement cannot come about without the co-operative interest and support of citizens. The minister certainly has a correct view point. In starting on his present job he is entitled to the prayers and tears of all the state of Illinois.

The board of education of Decatur insists that unless the tax levy for increasing funds for school purposes is approved that

it will be necessary to stop work in all but the first year of the high school. No doubt the funds are absolutely needed, but the board's statement has a certain sound of bluff about it. Everybody knows that high school work is not going to stop in a progressive city like Decatur, no matter what may be the action on this particular financial matter.

**GREAT YEAR FOR AUTOMOBILES IN PROSPECT.**  
Last year was considered a somewhat poor year in the automobile industry, yet the figures go to show an increase in the number of cars used in the United States of 1,250,000 by comparison with the year before.

This increase is not surprising when it is remembered that in the period from 1910 to 1912 that the number of motor vehicles used showed an increase of nearly 1800 per cent. That inevitably the bettering of road conditions is added and prompted because of automobile traffic is shown by the fact that in the 10 year period mentioned there has been an increase of 450 per cent in road construction and improvement.

There are already indications that 1922 will quite largely exceed last year's record, for there has been a leveling of car prices and manufacturers and dealers report even more than the usual number of inquiries.

THE GOOD RECORD OF CONGRESSMAN YATES.

Richard Yates, who is now serving as Congressman-at-Large from this state, is a candidate for re-nomination at the coming state primary. The former governor has been a member of congress now for several years and is thoroughly familiar with the work at the national capital. Experience thus had and the acquaintance formed during his term of office and in prior years will be of value to him and to Illinois if he continues to represent the state as one of its two congressmen-at-large. The record of Congressman Yates will bear close scrutiny and in it Illinoisans can find much in which to take pride. The name of Yates is inseparably linked with the history of this state and of the nation, and it is gratifying to the friends of Congressman Yates to know that his course thru the years has been such as to give further lustre to that name. It is to be hoped that Richard Yates is re-nominated at the primary in April, and assurance thus given that the state will have his valuable services for at least another two year period.

LECTURE WAS GIVEN AT STATE STREET CHURCH

Rev. Marion Humphreys of Springfield, Ill., illustrated by Stereopticon Slides, Work of Church in Home and Foreign Field—Session Meeting Followed Lecture.  
Rev. Marion Humphreys, pastor at large of the Springfield Presbyterian church, gave a stereopticon lecture at State Street Presbyterian church Wednesday evening. Following the lecture the official body of the church held a meeting at which time various matters of business were considered. The lecture dealt with the benevolent work of the Presbyterian church, both at home and abroad, and a great number of slides were shown. The work of the home mission board was first illustrated, the various agencies indicating what is being accomplished among the lumber jacks, the negroes, southern mountaineers, Alaskans, Indians and in the settlements of the larger cities. In the foreign field the work along educational, medical and industrial lines was shown, and there were also slides relating to the work which is now being carried on by the church among 12,000,000 children of the world who are not now in Sunday school.

The program of the evening included three or four illustrated hymns, "America the Beautiful," "Where Cross the Crowded Ways of Life" and "Throw Out the Life Line," being sung while beautiful slides were thrown upon the screen. At the close of the lecture the elders of the church held a business meeting. This was called especially for the purpose of considering the financial emergency relating to the benevolences of the church, and other matters of business were also given attention. The session voted unanimously to place itself on record as opposed to the introduction of Sunday movies in Jacksonville.

J., this year—the international convention, logically known as the supreme council meeting of the K. of C. and the New Jersey state convention. The big convention will be held on August 1, 2 and 3, while the state meeting will take place in May.

The K. of C. board of directors selected Atlantic City after considering invitations from 24 cities in the United States and Canada and from Porto Rico. The convention will be the largest in the history of the K. of C. exceeding over the 1921 San Francisco convention. Fifty-nine state jurisdictions will send delegates and visitors to Atlantic City representing the United States and its possessions, Canada, Newfoundland, Mexico and Cuba.

One of the features of the convention, supreme Secretary William J. McGinley states, will be the launching of a new, intensified K. of C. educational program.

BETTERMENTS PLANNED FOR GOLF COURSE

Municipal Club Held Annual Meeting—Expert Instructor Employed for Season—Park Board Ready to Help Along with Plans—Fee System for Play Announced  
Golf received a great impetus at the annual meeting of the Municipal Golf Club held in the rooms of the Chamber of Commerce last night. An announcement was made that the park board had agreed to make many improvements of value to the course and to employ a man to keep the fairway and the greens in condition. Jack Keywood, the professional who has been employed during the winter by the club, was engaged to serve as instructor and to build up the greens and otherwise see to it that the course is reconstructed along lines tending to make it one of the finest in this section of the state—in fact a better course than is afforded some of the country clubs of Illinois.

Announcement was made that the park board had agreed to pipe the course for water and to furnish the necessary pipe, sprinklers and water to keep the course in good condition; to make all necessary physical changes such as bunkers and traps and other things which might be mutually agreed upon between the park board and Mr. Keywood. The board also suggested that the Municipal Golf club employ expert help, which was agreed to thru the engagement of Mr. Keywood. The board also approved a scale of charges for playing on the course, a practice on most municipal courses, and made necessary by the expense of its maintenance in good condition.

The above paragraphs set out in brief the developments of the meeting of golfers held last night. In addition, officers for the coming year were elected as follows:

**Officers Are Elected**  
President—F. E. Farrell (re-elected by acclamation.)  
Vice president—E. A. Chapin.  
Secretary-treasurer—M. W. Osborne.

The following scale of charges for playing on the course was adopted, it having previously been approved by the park board: Season tickets, \$10.00; monthly ticket, \$2.50; per round, 10c; lessons, 30 minutes, \$1.

Heretofore the support of the game at the park has been thru voluntary subscriptions made by players and friends of the sport. It has become common in public parks to charge fees for playing the courses, and it has been deemed advisable to establish the practice here. As a result the above scale was submitted with the approval of both the park board and the committee representing the club, and was adopted after discussion.

**Ticket Committee Named**  
A committee on the sale of tickets was named, consisting of Cole Rowe, Francis Rantz, T. W. Beadle, Wood Phillips, Harrison King, J. W. Hubble, Cass Hamm, Justus Wright, A. M. Masters and L. S. Reid. This committee will at once devote its energies to its work.

The thanks of the club were voted to the park board for its hearty co-operation, to the Elks for the use of a room for instruction purposes during the past winter and to Cole Rowe for his efficient work in co-operation with the park board.

One of the most important things done at the meeting was the engagement of Jack Keywood, for the period of eight months at a salary of \$175 per month, for full time, to act as instructor and to supervise and assist in the construction work on the course.

The meeting was attended by about twenty-five men and it was a harmonious and enthusiastic gathering of those who play the game and who desire to see its benefits extended as widely as may be possible.

### YOUNG ARTISTS TO GIVE WORKS OF THE FAMOUS

Numbers of Foremost Composers Are Included on Program to Be Given by Misses Mehus and Morris at I. W. C.

The following program will be played at Music Hall Thursday evening, March 16, by Miss Alma Mehus, pianist, and Miss Margaret Morris, violinist. A glance will satisfy one as to the high quality of the contents of it, including as it does the greatest composers for both violin and piano. Though a display of technical virtuosity is not the primary object of such a recital it is significant to note the tremendous technique required for the presentation of the following program:

PROGRAM.  
1. Toccata and Fugue, Bach-Tausig  
Miss Mehus.  
2. Concerto in D Minor, Bruch  
Adagio, ma non troppo  
Miss Morris.  
3. Sonata appassionata Op. 57, Beethoven  
Assai Allegro  
Andante con moto  
Allegro ma non troppo  
Miss Mehus.  
4. Poem, Schumann-Auer  
Village Dance, Barleigh  
The Walnut Tree, Schumann-Auer  
Romance, Wieniawski  
Miss Morris.  
5. Etude Op. 25 No. 7 ("cello etude"), Chopin  
Schero Op. 31, Chopin  
Miss Mehus.  
6. Fantasia Appassionata, Vieuxtemps  
Miss Morris.  
7. Etude de concert in F Minor, Liszt  
Etude in D-flat major (Un Sospiro), Liszt  
Etude in A minor, Paganini-Liszt  
Miss Mehus.

The recital will be of unusual interest. Miss Mehus appeared here informally last year. Of her one critic said, "Miss Mehus is young in her profession and very young in years, yet she plays like a seasoned veteran. The enormously big tone that she draws from the instrument is satisfying in its whole heartedness. Velvet fingers that ripple over the keys, a beautiful singing tone and great speed are hers." And another said, "She has a tremendous volume of tone at her command—a tone capable of deepest tenderness and great dramatic heights. Her climaxes are thrilling, the music she chose from Beethoven, Bach and Chopin—not only makes great technical demands, but requires a depth of musical understanding, which she possesses."

A portion of an article in the "Atlanta, Ga., Constitution," accompanying a photograph of Miss Morris at the age of twelve, reads as follows:

"A return engagement to provide one of the recitals in the Junior series of concerts for next season under the auspices of the Atlanta Music Study Club was the immediate result of the appearance of Miss Margaret Morris, in recital at a recent meeting of the Study Club recently."

"Miss Morris is a very young musician but she has already asserted her claim to a future."

In the "Athens Banner" we find the occasion being the artistic recital given by Miss Margaret Morris, the gifted young musician, who has won fame at home and abroad for her remarkable talent. Although she is quite a young girl she possesses the poise of the perfect artist. With the faintest touch imaginable, her notes ring with perfect accuracy and marvelous sweetness. Her delightful interpretation reveals the fine musician. Her sweet, refreshing youth is crowned with a wonderful talent and all Athens is proud of her."

These young artists not only please, they thrill their audience with their very exuberance. An evening of unusual delight is in store for the Jacksonville public on Thursday, March 16.

### CHURCHES PLAN BIBLE SCHOOL THIS SUMMER

Four Weeks' Daily Bible School Will Probably Be Conducted Here June 5 to 30—Committees Now at Work.

The various churches of Jacksonville are now planning to conduct a daily Vacation Bible school here from June 5 to June 30. At least ten churches are to cooperate in this effort, definite plans for which were made at a recent meeting of the Ministerial association.

The committees in charge have not yet announced where the school will be held, but this will be made known later, together with other facts in connection with the school.

The school will be open to all children between ages of four and fourteen, and they will have the instruction of teachers of ability. The daily program will include Bible study, Bible memory work, Story Telling, Manual Craft work, Biblical Dramatics, Patriotic exercises, Play periods and Devotional periods. The daily routine is so arranged that the children are given worth while lessons in religion and patriotism, and time which would otherwise perhaps be worse than wasted is turned to good use.

The committees in charge of the plans for the school are given below:

Curriculum Committee: Rev. G. E. Stickney, Rev. C. G. Robertson and Rev. W. H. Marbach.

Faculty Committee: Rev. M. L. Pontius, Rev. T. H. Toll and Rev. A. P. Howells.

Finance Committee: Rev. W. E. Spoons, J. Findley, and the superintendents of the Sunday schools, with George Kopperl, chairman of the committee.

Publicity Committee: Rev. Thomas Smith, Rev. G. W. Randle, J. W. Walton and Will Fay.

Central Committee: Revs. G. E. Stickney, C. G. Robertson, J. F. Langton, A. P. Howells, M. L. Pontius and W. H. Marbach.

Charles M. Strawn to Push Membership for New Organization—Purpose Is to Make Conditions Better for Car Owners.

Charles M. Strawn has just been appointed Jacksonville representative of the American Anti-Auto Thief association. This organization, which was incorporated a few months ago, has its home office in Springfield, the president being Ernest Helmle, who is president of the Commercial Trust & Savings Bank of Springfield. C. F. Mortimer, Sangamon county state's attorney, is a vice president as are James A. Hall, president of the Lincoln Park Coal Co., and A. D. Mackie, president of the Illinois Power Co.

The association has been formed for the special protection of car owners but also to bring to pass the observance of the laws of the United States in general. It is also the function of the association to furnish its members with all useful information concerning auto trails and road conditions along highways and in cities.

It is a further function of the association to supply information about motor insurance companies, as to the type of policy which is the wisest and most desirable. It is the expectation that the association will speedily become a national concern, judging by the rapid growth in membership in a few weeks' time and the interest which has already been shown.

INDIANAPOLIS, Ind., March 15.—Isaiah Moore, 32, in jail here for having 13 wives, declared tonight that he contemplated becoming an evangelist so he might warn others of "the dangers of matrimony" as soon as he gets out of his present troubles, which were increased during the day by the return of grand jury indictments charging him with bigamy, embezzlement and grand larceny. "My one desire is to lead a Christian life," Moore said, who became acquainted with most of his wives when attending church. "I always wanted to enter the ministry."

The bigamy charge returned by the grand jury centers around Moore's marriage recently to Miss Harriet Evans of Mexico, Ind. The embezzlement and grand larceny charges allege that he took a check for \$512 from Miss Evans and then deserted her.

## TO CLAIM STATE WAS HAMPERED IN SMALL CASE

Reported State Will Charge Court Agreement Was Violated

(By The Associated Press)  
CHICAGO, March 15.—It was reported today that attorneys representing the state will appear before Judge Claire C. Edwards at Waukegan Friday charging that he state has been hampered by the defense in preparing its case against Governor Len Small under indictment for conspiracy to defraud the state of interest on state funds while serving as state treasurer. The state, it is said, will charge that an agreement made in court before Judge Edwards has been violated. This agreement was to the effect that the state should be allowed access to the books of the First Trust & Savings Bank of Grant Park, Ill., and the Curtis Trust company of the same place. The state, it is said, will either demand access to the books or ask for an order to have them produced at Waukegan and then impounded.

Subpoenas Violated. Subpoenas to produce the books before Judge Edwards on March 6, were served but officers appeared without the records, and the state asked for an "unhampered, uninterrupted opportunity" to examine the documents. This, the state contends was agreed to but it is asserted that when an accountant went to Grant Park he was told the books had been taken to Kankakee, Ill., and when he went there was told that he could only see the records under constant scrutiny. The state contends this would have disclosed to the defense the evidence for which a search was being made.

James H. Wilkerson, assistant attorney general is expected to represent the state Friday.

## BETTER STANDARDS IN SMALL TOWNS

(By The Associated Press)  
CHICAGO, March 15.—Small town high schools have more permanently good standards than those of cities because of the outside social activities of high school students. Dr. M. P. Phillips, of the State Department of Education at St. Paul, Minn., declared today at a meeting of the North Central association of secondary schools and colleges. "The larger the community the lower the social standard," Mr. Phillips said. "It is obvious that students cannot do good school work and be out at night at social functions."

The meeting today was held for the purpose of receiving applications for the accrediting of schools in the 18 states which comprise the north central association.

Daniel Deitrick journeyed up from Concord yesterday to attend to business.

## QUICK RELIEF FROM CONSTIPATION

Get Dr. Edwards' Olive Tablets

That is the joyful cry of thousands since Dr. Edwards produced Olive Tablets, the substitute for calomel. Dr. Edwards, a practicing physician for 17 years and calomel's old-time enemy, discovered the formula for Olive Tablets while treating patients for chronic constipation and torrid livers. Dr. Edwards' Olive Tablets do not contain calomel, but a healing, soothing vegetable laxative.

No gripping is the "keynote" of these little sugar-coated, olive-colored tablets. They cause the bowels and liver to act normally. They never force them to unnatural action.

If you have a "dark brown mouth," bad breath—a dull, tired feeling—sick headache—torpid liver—constipation, you'll find quick, sure and pleasant results from one or two of Dr. Edwards' Olive Tablets at bedtime.

Thousands take them every night just to keep right. Try them. 15c and 30c.

has been given as to just how long  
the order will be effective. At  
present there are about 35 men  
employed in the different depart-  
ments, the force being somewhat  
smaller than was true three  
months ago.

It will be remembered that  
most of the shop employees have  
been laid off for more than a year  
and this new order does not come  
as a great surprise. Work is very  
irregular just at present in a great  
many railroad shops and it is  
understood that the C. P. & St. L.  
faces some especially difficult  
financial conditions.

Mrs. George Chambers, and her  
daughter Mrs. Leach, 513 West  
Morgan street, were called to  
Springfield Wednesday evening by  
the death of a relative.

**LARGE AUDIENCE  
HEARD BAND CONCERT**

Illinois College Band Gave Excel-  
lent Concert Wednesday Night  
—Funds to be Used for Uni-  
forms.

The Illinois College Band con-  
cert was given in the high school  
auditorium Wednesday night. An  
audience of good size was present  
and the program was very much  
worth while. J. Bart Johnson has  
been serving as director of the  
band for several weeks and the re-  
sults have been most gratifying.  
The audience last night attested  
public interest in the organiza-  
tion and appreciation of the fact  
that the members of the band  
have at various times shown a  
willingness to aid enterprises that  
are helpful to Jacksonville.

The members of the band have  
given their services freely for a  
number of public occasions. In  
addition to the excellent program  
of band selections, the musical  
interest was increased by the solos  
of Clayton Quast of the conserva-  
tory faculty. The fund raised  
from this concert will go toward  
the purchase of band uniforms.  
The organization includes the fol-  
lowing students:  
Zolton, Felt, Ellison, Hart, Har-  
rison, Brown, Carr, Cornick, Ru-  
bendall, W. Roberts, Mabry Nic-  
ols, Pratt, Leo Johnson, McCrack-  
en, Craig, Harley, Pinkerton,  
Meyers, Parker, Peters, J. R. Rob-  
erts, Hatfield, Govett, Ehrigott and  
J. Bart Johnson, director.

**OIL BIDS STILL  
UNDED ADVISEMENT.**

The Morgan county board did  
not award the contract for oil on  
the big 5.12 cents received at  
Springfield Tuesday. The mem-  
bers of the board determined at  
that time to wait until Saturday  
before taking action. Already  
they have been offered oil by an-  
other concern at a price of 5 cents  
and there are at least one or  
two other oil concerns that wish  
to talk to the board about supply  
and price before the contract is  
made.

As already indicated, it is the  
intention to use about 1,250,000  
gallons of oil on Morgan county  
roads this year.

during the afternoon.

**WARSAW BREWER  
IS FOUND GUILTY**

(By The Associated Press)

QUINCY, Ill., March 15.—John  
H. Giller and Walter J. Giller of  
the Popel Giller Brewing company  
of Warsaw, Ill., were found guilty  
of making and selling beer of il-  
legal alcoholic content by a jury  
in federal court here this after-  
noon after a three days' trial.

The case followed the seizure of  
a car load of bottled beer at the  
brewery in Warsaw last August  
by prohibition enforcement offi-  
cers following up purchases of  
beer in Peru, LaSalle and Utica,  
Illinois and tracing them to the  
Warsaw plant. Government chemi-  
sts testified that the beer seized  
contained 3 per cent of alcohol.

# An Apology

We wish to apologize to those who were slightly injured, and had their clothes torn in the rush yesterday. We are indeed sorry that we had to keep the doors locked and turn away many people, although we employed every available saleslady in Jacksonville; we were utterly swamped; covered up at times.

For the remaining days of this Mammoth Sale we have employed more experienced help and will endeavor to see that all are waited on promptly.

## A Word of Thanks

We are indeed pleased to say that never in the history of this firm's business have we done such an enormous amount of business in such a short period of time. We want to sincerely thank our customers who have made this sale a tremendous success. We knew that it could not be otherwise—for truthful advertising and the straightforward business methods we use in conducting our business, are sure to bring success.

We realize that we are forced to give up the building now occupied by us, and we know that only low prices will move the goods.

Yesterday demonstrated that the buying public is ready and willing to buy provided they get the LOW PRICE. COME EVERY DAY this week; we have more NEW STYLISH COATS, SUITS, DRESSES and MILLINERY that haven't been shown, which will be placed on sale as the other merchandise is moved to make room to display them.

**Gasoline for an Empire**

THE eleven states served by the Standard Oil Company (Indiana) is an empire in area, wealth, population, and industrial activities. It constitutes the largest and most important market for petroleum products on the American continent.

To win such a market, to gain the confidence, and enjoy the respect of this buying public is a task worth while.

To achieve this objective, to merit the confidence of its patrons, and to be prepared at all times to serve them, has been for many years the dominating idea of the Standard Oil Company (Indiana). To make its service more comprehensive it manufactures special grades of its products to meet special requirements.

For example, take gasoline. Under this general head come fifteen different products, each made with scientific precision to meet a specific, well-defined need.

For the motorist the Standard Oil Company (Indiana) makes Red Crown Gasoline. This product is made for the sole purpose of generating power in the modern internal combustion engine. It has a chain of boiling point fractions carefully adjusted and graduated with scientific exactness to enable you to get from your engine all the power it can develop.

In attacking the problem of supplying motor gasoline for 30 million people, three main points were considered—

**First—Quality:** The gasoline must function perfectly; to do this nothing short of scientific precision is sufficient.

**Second—Quantity:** To meet the ever-growing demands for motor fuel, the yield of gasoline must be great if the cost is to be kept down.

**Third—Distribution:** To make it easy for the consumer, wherever he may live, to secure 1 gallon or 1000 gallons of gasoline, whenever he may need it.

In Red Crown Gasoline is symbolized the ideals animating the Board of Directors of the Standard Oil Company (Indiana). Red Crown is highly efficient—it is produced in large quantities, and sold at a price that is fair to all.

Red Crown has achieved leadership by rendering a maximum of service just as the Standard Oil Company (Indiana) has become a leader in the industry by rendering a definite, positive, essential service.

It is by such standards that the Standard Oil Company (Indiana) measures its usefulness, and by maintaining such standards it intends to continue this leadership by meriting the confidence and respect of the public it serves.

**HER AILMENTS ALL GONE NOW**

Mrs. Sherman Helped by Lydia E. Pinkham's Vegetable Compound

Lake Michigan.—"About one year ago I suffered with irregularities and at times was obliged to stay off my feet. I doctored with our family physician and he finally said he could not understand my case, so I decided to try Lydia E. Pinkham's Vegetable Compound. After I had taken the first bottle I could see that I was getting better. I took several bottles of the Vegetable Compound and used Lydia E. Pinkham's Sanative Wash and I am entirely cured of my ailments. You may publish this letter if you wish."

Mrs. M. SHERMAN, Route 2, Lake Michigan.

There is one fact women should consider and that is this. Women suffer from irregularities and various forms of weakness. They try this and that doctor, as well as different medicines. Finally they take Lydia E. Pinkham's Compound, and Mrs. Sherman's experience is simply another case showing its merit.

If your family physician fails to help you and the same old troubles persist, why isn't it reasonable to try Lydia E. Pinkham's Compound?

**FRESHMAN CLASS**  
IS RECOGNIZED

Interesting Ceremony is Carried Out at Illinois Woman's College—Banner of Class of 1921 Presented.

Over one hundred Freshmen are members of the class of '25 recognized in services held at Illinois Woman's College yesterday morning. The Freshman recognition services are an annual event and yesterday morning's services were impressive in every respect.

The services were held in the college chapel in Music Hall at ten o'clock. The Freshmen were all dressed in white and wore red arm bands with the letters '25 inscribed on them. After the students marched into the chapel the class banner of 1921 was lowered on the stage and Miss Isabel Woodman, as president of the Senior class of last year presented the red and white banner to the incoming class of '25. Miss Genevieve Wilson, president of the Freshman class received the banner in behalf of the class and the Freshmen then sang the song of the class of '25. Dr. Harker made a brief address in which he congratulated the class on beginning the college career and urged that as many of them as possible continue in their college work until the final goal of college life, graduation and a degree is reached.

The singing of the class hymn, "For the Beauty of the Earth," marked the close of the exercises. Miss Mary Anderson is the faculty advisor of the new class.

## GREAT PICTURES ON VIEW AT STRAWN ART HOME

Exhibit Made Possible by Courtesy of Metropolitan Museum Attracts Many Visitors.

Seldom is it the opportunity of Jacksonville art lovers to see in our own city, such a rare collection of pictures as is now being shown at the David Strawn Art home under the auspices of the Jacksonville Art Association.

The pictures comprise a collection of oil paintings from the Metropolitan Museum in New York and embrace the work of the French, American, Spanish and German schools.

The canvases by American artists of the Modern school perhaps first draw the attention of the observer. The large canvas "Evening" by our great American landscapist, George Innes, pictures the deep quiet and peace of a country scene done in the dull yet vibrant coloring, so characteristic of Innes. The picture represents the work of the artist during the early years of his career.

"The Daughters' Return" by Robert MacCameron is a strong genre group and shows another phase of American art. The small canvas "A Difficult Question" by Gauguin attracts attention especially because of the brilliant glossy texture which the artist's brush creates. The ability to depict strength, action and swift movement is shown in the much admired picture by Frederick Remington, "Cavalry Charge on the Southern Plains."

Although the number of portraits in the collection is comparatively small they have much favorable comment.

"The portrait of Mark Twain" by Charles Noel Plaz, the well known American artist, is strong in its conception and executed with excellent technique. The quiet irresistible charm of "Marie" by Rutherford Fitz has made this picture one of the most admired of its group. Striking because of its subtle conception and evident strength and power of its subjects is the large canvas, "Portrait of a Lady With a Dog," by S. Seymour Thomas.

Probably the best known and most popular picture in the collection is the beautiful canvas, "Mary Magdalen at the Tomb of Our Savior," by Jean J. Henner, famous exponent of the modern French school. This picture of the Blessed Virgin kneeling at the tomb of Jesus depicts rare beauty, simplicity, and purity of conception. The beautiful lines of the kneeling figure and the exquisite texture of the skin combine to give the picture a warmth and appeal rarely equalled.

A number of canvases from the brushes of the famous "Men of Thirty," the Barbizon school of French art, are included in the collection. "Riverside," a landscape by Daubigny, "Trees," by Jules Dupre and a number of other canvases illustrate the charm of the famous plain air school. Richness of color is characteristic of the canvases by Antoine Vollon, of the French school.

Oriental richness and variety of color and charm of picturesque effect is seen in the canvases by Edwin L. Weeks of the American school, "The Rajah Starting on a Hunt," Martin Rico of the Spanish school has a number of lovely pictures. In the collection "Venice" and "On the Seine" evidence the typical light colorful touch of the modern panish artists. "The Outpost" a small but striking canvas from the brush of Adolph Schreyer, of the German school, is remarkable for its realism and the sweeping movement which it depicts.

The collection of canvases is such as is usually seen only in the art galleries of our larger cities and Jacksonville people are fortunate to have this opportunity of becoming familiar with the work of modern artists. The Jacksonville Art Association has brought some beautiful collections to the city this year and the interest shown in them evidences the fact that Jacksonville people strongly appreciate the best in art.

The exhibit is open to the public without charge from 10 to 5 o'clock P. M.

## ADVANCE MAN FOR "CONFLICT" IN TOWN

Maurice Engle, a former well known newspaper man, and for the last five years advertising manager for the Universal Film Corporation, the largest motion picture producers in the world, is back in Jacksonville after an absence of two years. Mr. Engle has frequently visited Jacksonville, bringing to this city many of the great screen masterpieces of latter years. This time Engle is in Jacksonville in advance of the special engagement of Priscilla Dean in her latest sensation, "Conflict."

"I don't believe the motion picture industry has suffered as hard as other lines," said Mr. Engle to the Journal, "yet they have been hit just hard enough to arrange and adjust things to the times. For one thing, however, it means that the producer who expects to stay in the business will have to produce on a larger scale and give the public pictures superlatively better than in the past."
